## VACATION OVERVIEW

Mornin' sunshine! Not only are the residents of Newfoundland and Labrador the first to see the sunrise in North America, they're also lucky enough to see floating icebergs, spouting whales, and plunging puffins on a regular basis. Pack your shades for the quaint lighthouses, rainbow-colored houses, and other bright sights this tour of Newfoundland and Labrador has to offer, including three UNESCO World Heritage Sites. Witness the exceptional beauty and unique geological features of Gros Morne National Park, walk in the footsteps of Vikings at L'Anse Aux Meadows National Historic Site Red Bay, and immerse yourself in the life of a 16th-century whaler at the Red Bay Basque Whaling Station. A ferry crossing between Newfoundland and Labrador – plus scenic cruises around Bonne Bay and the Witless Bay Islands – offer additional vantage points of this windswept, wondrous land. Don't forget to toast the stunning sunset with a local iceberg beer or a shot of Screech. In most parts of North America, budding daffodils are the first sign that spring has sprung. In Newfoundland and Labrador, floating icebergs are the cue to break out the pastels. This special Newfoundland and Labrador departure includes time at the annual Iceberg Festival in St. Anthony to celebrate the season and the arrival of the icebergs. Enjoy a scenic cruise through Iceberg Alley, a delicious Viking feast, and many other tasty cultural events the festival has to offer.

*Sheila invites you to explore her home province with an insider's view of Newfoundland!*
